

## **"WHO" IS QUEST?**

"Quest is a vast, Universal Consciousness that comes on a wave of peace and love, making itself available to all, in an interfaith, non-denominational spiritual way that allows for the expansion of spiritual growth. Quest's purpose is to act as a blessing to humankind, to provide the foundation for spiritual understanding in a universal and loving way through spiritual tools and knowledge, thereby bringing awareness of spiritual principles to daily living. We feel the name, Quest, is appropriate because it reveals the nature of today's spiritual changes... a Quest for realization of Oneness, the Inner Being (an aspect of God) that is radiant, light-filled, free of limitation and on the path."

These books have been in existence for some time, but they are being appropriately presented as the New Millennium dawns. In the meantime, Quest's services have been (and are being) provided to those who were serving in a concentrated and larger manner, to serve others in great need and to support them in any way.

However, the March of 1987 appearance of a "new guide" coming through the Rev. Diane K. Chapin came in on a much more powerful and recognizable name than that of "Quest." Over a ten-year+ period, however, it became apparent that the Western world was somewhat suspicious of an Eastern-sounding guide (without realizing that a spiritual guide, of such magnitude and consciousness, had no identification or connection with earthly concepts of "East" and "West").

### **The Name of "Quest" is Selected on 10-3-98**

(a synopsis of that reading)

The Guides: Now, we are delighted to offer the benefit of a name change if it will finally assist in the benefit of others receiving the blessing of spiritual enhancement through our work. We think that, perhaps, a simple name is best. We are thinking of something like, Quest. If you use a name that includes 'consciousness' it becomes lengthy.

We are looking for something different from the normal metaphysical. We are looking for something that stands out. We are looking for something that has simplicity, yet universal meaning. Again, we come back to Quest, which seems to suit in so many ways. Let us say, Quest can be called a universal consciousness that comes on a wave of peace and love, making itself available to all, in an interfaith, non-denominational spiritual way that allows for the expansion of spiritual growth, tools and knowledge. Its purpose is to act as a blessing and to provide the foundation spiritual understanding in, again, an interfaith way or a universal ... universal and loving ways (vs. interfaith). And that

is all you really need as an introduction. You would not have to say much more at all. And yet there is nothing to say that you cannot reveal, if pushed, that this is, in fact, The Universal Buddha Consciousness. But the fact stands that it became too difficult and that The Buddha Consciousness, in no way, wanted to offend Buddhists or others, so agreed, after ten years, to a name change. Not only agreed, but suggested it.

The Guides - The Buddha Consciousness: The only problem we see, and we don't think it is a big one, is the fact that longevity seems to be so treasured on earth and this may seem like a new kid on the block, when, in fact, it is not so. The vehicle has been involved in the spiritual counseling and healing business for quite a number of years, now, and so it would be appropriate to say that, over time, the vehicle has channeled or, through inspired guidance, that for various reasons or purposes has provided different aspects of itself that appear through a name change.

The Buddha Consciousness: But we would disagree that the thread, that the connection and the commitment that the vehicle and we share, ever ended, because it did not and we are still The Buddha Consciousness, at the throne of it all, at the heart of it all. But we are such a vast resource that you will see that Quest reveals so many more interesting things that it is going to be very interesting....very interesting for all. And yet you personally and others who have drawn upon The Buddha will have that familiarity that will not be lost. You will see. So we think we have found a name

NOTE: From information presented by Quest on June 16, 2000, once there is no longer a "living author" on the human plane (i.e. Rev. Diane K. Chapin), their materials may again indicate The Buddha Consciousness as the source of the material. (This would necessitate a search-and-replace operation throughout the works, to date, including the works of The Universal Oneness. However, Light Path Resources made the decision to leave the name of "Quest" in all of the materials.)

**IN THEIR OWN WORDS****- WHO WE ARE -****THE BUDDHA CONSCIOUSNESS**

*Because of the fact that this 'channeled energy,' from the first, called 'himself' 'The Buddha Consciousness,' taking the name of a very historical world figure, began providing information and 'sounded' so different than any other 'entity' coming through a channel today, it was felt that some clarification was warranted concerning who or what was being channeled. The following are excerpts from some of those readings which help clarify 'who' the Buddha Consciousness is, and provides both a tremendous insight into the higher realms of spiritual development and a background into the quality, depth and direction of the teachings coming through Rev. Diane K. Chapin.*

Message of May 5, 1989

We see your concern as to Buddha and, we say, Buddha is the namesake of all, Buddha encompasses the upper level of consciousness. Buddha is a representation of an uplifted consciousness living in the spiritual dimension with God as One. The consciousness level this channel enjoys is an aspect of the Buddha as is experienced on the earth plane and in other dimensions. For all are One.

It has been many, many years since I incarnated on the earth plane and I have lived in Spirit by choice for there are many duties that are more appropriate for me to accomplish. As I have said, my consciousness also includes that of the Buddha incarnate, for I have absorbed that consciousness through methods that are unfamiliar to you. I have walked on the earth plane as Siddhartha and Buddha, but I have gone beyond to become an aspect of the God-force in its most primary essence.

This is a great honor for one to channel this essence, and this channel truly has no idea of the powers behind this resource and what can be accomplished. The channel can state that she truly channels the essence of the original Buddha, but it is for you to understand that there has been a tremendous enlargement that has occurred in Spirit.

Message of July 10, 1989

We come in love and we come in peace. We are the focus of what the Buddha has learned. We are as it were, the spearhead of a vast level of consciousness. The Buddha himself is that vast level of consciousness

that is light, that is love, that is all seeing, that is all knowing and that is able to surround the Universe and express love and peace to all. What the channel is receiving is a body of knowledge that is passed down to her through the Buddha consciousness. The body of knowledge that we are endeavoring to express are spiritual principles, ways of living and our message to the planet that it must return to the Garden of Eden, to that which is positive.

We are The Buddha Consciousness, but we are interfaith, we are interbeing, we are multidimensional, we are multilevel. We are not an entity, per se. We are an aspect of the Buddha. We are only a particle of that vast aspect of wisdom, but we are at the pinnacle of that particle and what we are offering you is a very pure source of light, a very pure source of energy and a very pure resource for the multitudes that come to you. We cannot tell you that we are a personality or that we are ego. We cannot tell you the concrete phase (of our development) that may satisfy others. What we can tell you is that what the Buddhists worship is encompassed in this vast reservoir of beauty. For what is being channeled through this resource is not so much the Buddha, but the knowledge and beauty of the Buddha.

The Buddha himself as he walked on the earth is an aspect of our consciousness. We are the Buddha, but we are more than the Buddha. We are offering a particle of that greater wisdom to you for your use. The Buddha Consciousness is a resource of the Buddha. The Buddha himself is directly in contact with Buddhists and the Buddha makes himself available to those who subscribe to the Buddhist philosophy, but we are more than that.

We are At-Onement. We are peace. We are part of you. We are the consciousness of you that is light, that is energy and that is love. We are the part of you that is beauty. We are the part of you that knows that you are an aspect of God and that's why we come to address you, to remind you of who and what you are... to remind you of yourself. We come as a reminder... a gentle reminder, a peaceful reminder. We do not come to startle you with the Buddha presence. We are come to remind you of the Godhead within you. We are a resource of the Buddha. That is not to say you are getting lesser, it is to say you are getting the very purist light we can pour forth. You are getting the light and energy of The Buddha Consciousness. You are getting a body of information and more than that will come. You receive, as we can and at your request, the upliftment of The Buddha Consciousness. This is what we are come for. We are come with the urgent message of peace, of love and of knowledge. We are that side of The Buddha Consciousness which is devoted to mankind, which is devoted to peace, which is devoted to

brotherhood and which is devoted to love. We are that side of The Buddha Consciousness which is promoting evolution.

We are come to promote your evolution spiritually and in terms of your own human growth. We are come for that purpose. Our purpose is to serve you, our purpose is to bring you beauty, our purpose is to bring you love and our purpose is to show you a way to uplift yourselves. Many of you are in the self-help group. Many of you are willing to help yourselves. Many of you are willing to be personally empowered and to be responsible for yourselves. This is why we are come, WE LITERALLY COME AT YOUR REQUEST TO TEACH YOU WHAT YOU ALREADY KNOW, TO RETEACH YOU THAT YOU ARE AN ASPECT OF GOD, TO RETEACH YOU SPIRITUAL PRINCIPLES, TO RETEACH YOU PHILOSOPHIES THAT YOU HAVE KNOWN IN OTHER INCARNATIONS.

We do not come as the incarnated Buddha, himself. We realize that would be a presumption on your plane of action and would be an affront and we do not wish that. We come as a resource and particle of the spearhead known as Buddha. We come as an aspect of the Buddha Uplifted Consciousness. We are The Buddha Consciousness and in reality, as we are God, we are Buddha. But we define a separateness for you, for your explanation, for your education and we hope, for your refinement. We will continue to look at this through your eyes as we can and try to delineate further for you who and what we are. We are The Buddha Consciousness, but more than that... we are a resource to you for your use.

We want to express to you in very vast terms that this is what we are. We do not come to be honored or to be revered. We come as a facilitator, as a connector to that great body of wisdom, which is God. We come as a provider of knowledge. We provide you with the knowledge that is needful for you now. We are a resource and a provider to you, for your use, for your information, for your upliftment and for your understanding. We are extensive in this. We do not want you to think that you are getting 'less than,' for, in reality, we are offering you all that we can through a human channel. We will uplift all, for we are come for you. We are come for you to be interactive. We are come to teach you of your cause and effect. We are come to teach you how to live a more spiritual existence, but how to do so in practical ways. That is, to show you that now that you have stepped on your path, you are in the flow of cause... YOU are sending YOU positive cause.

Look upon cause as a flow... not just as a solid object that you are sending forth... look upon it as flowing through you and out of you. You are pouring cause out into the Universe today and this we can fulfill. Do not forget to erase your negative thoughts. This is what we come to

teach you, but we do not always have the opportunity to find someone in the throes of positive cause and be able to address that. This is what we wish we could do by example, to show you that today you are living in the moment a more right life by your expression. That is part of your personal sense of empowerment. We will work with you to help you keep this level of attunement, for it will bring your health into better balance and it will allow you to flow more evenly instead of as an ocean that recedes, then comes to you, but never quite makes it. But again, you are doing this... you are doing this, this cause.

We are the resource for you to remind you of what you knew before you stepped away from God, that is, when humanity assumed a position of wanting to live their existence by their will. Humanity became blinded to what God is. God never stepped away. Humanity became blinded and they must be reminded that God is within them... that they are their own cause and effect, and that they are their own empowerment. And this is why we call ourselves a resource, because we will pour forth our knowledge, our upliftment and our benefit. A resource is for your use. If we said we are a provider, you would think, "Ah! I will be provided for". Indeed you will, but it must be through your evolution spiritually, through your understanding of cause and effect, through your willingness to make your core changes, through your ability to stay in positivity. We are available to you at any time.

Your most accessible avenue is through the little techniques we are teaching, through viewing your hands, touching your face, cleansing your aura, calling back your negative thoughts. What you are doing is calling in the Universe. You are calling in the universal flow of energy when you do these things. When you perform such tasks you are immediately putting yourself back on course.

Now we recognize that you may not feel this immediately all of the time and this is another reason we strongly recommend the use of personal color. Personal color uplifts your vibratory state. All of this you can do for yourself. As you uplift your vibratory state, that is a good point to start flowing forth in your cause, to use the universal resource. When you see your personal color, you know that you are connected with the God Force. You know that the resource of The Buddha Consciousness, of higher levels of consciousness, whatever you are comfortable with calling it, is available to you at that time. It is for your use. Use your connectors and do so faithfully.

Upliftment comes from within and without. We make efforts to uplift you, but you also uplift yourself. As you are uplifted you have accepted that upliftment and agreed to it. And as you agree to the positivity that we can give you on a daily basis, your lives individually and collectively

will begin to take on the form, the depth, and the breadth that you are working for so hard.

We are here to work with your agreement in positivity. We are here to teach you some simple tasks that will uplift you and we are most assuredly here to instruct the planet of its necessity to be more fulfilling of itself, to live in peace, to live in brotherhood, to live in self-respect, to honor the self, to honor others, and to set the world aright through the connection of your lights with others, rather than outpouring the negativity that we have seen so blatantly flowing from the earth plane.

So, in your development you will come for yourselves to understand the nature of who and what we are. But for others this will also be developmental. We cannot prove to you who we are, but we can instruct you and we can give you information that is original and that is encompassing all of your issues. This we can do for you. We can uplift you, we can send you energy, we can attune your vibrations, we can open your chakras, we can do all of this to aide you in your understanding that a higher resource is coming into this room today. But we are not going to send a bolt of lightning. We are at a level where such an action would be offensive to us. We are at a level where faith is a 'given.' We are at a level where it is understood that there is only one God and that we are all an aspect of God. So we are making adjustments to bring you into that beauty and understanding with which we live all of the time.

However we cannot descend and materialize our consciousness for you. This would not be appropriate at this time. What is appropriate is for us to send the most powerful message we can. What is appropriate is for us to be instructional and to be a resource unto you and to serve you and to do so in any way that we can. It is appropriate for us to bless you. It is appropriate for us to let you know of your connection with us, that we are one in the same, that we are all part of each other through light, love, and truth, and to remind you that what we have come to do is simply to show you the mirror of your spiritual selves. This is our purpose and this is who and what we are.

We are you. We are you in the most uplifted form that there is. We are you in strength, we are you in power, we are you in self-empowerment, we are you in beauty and in Glory and in peace and in love. We are your finest attributes. All of these attributes you have been provided are but resources for your use, however few of you, if any, use them. Rather, you use your willfulness, you use your stubbornness, you use your fear, you use negative habits.

What happened when humankind stepped away from God is that they got into the habit of using lesser skills. We have come to teach you to use your higher skills. These are all skills that can be learned. That is to say, a skill is a technique. Empowerment in many ways is the understanding of cause and effect. This is a technique as well as a law. Beauty comes from within, but the techniques of uplifting yourselves are skills.

We are here to reshape your view of yourself and of the Universe that you occupy. We are here to teach you that you are not alone. We are here to teach you that others see you and how you are seen, that it is time for self-empowerment to allow you to grow into spiritual adulthood, to see the vastness and the beauty of All, and to use the techniques that you have been given... your upper level of skills... not just your intelligence, not just your ego, not just your personality, but your spiritual vision.

Your expression of accomplishment should not always be through the intellect, rather it should come through Spirit, through the vision of the beauty of life, the beauty of the world, the beauty of God. As you come into this expression, your vibrations are uplifted, your attunement is centered, you have used your purposeful skills, not just the negative skills. Now you are able to automatically employ the law of cause and effect and to let all that is good flow through you, because you have done it yourself. You have created for yourself what it is you most want in your life, prosperity, health, well being and beauty. These are the things that humanity cries for.

Many of you suffer from the lack of beauty in the life. You do not see your inner beauty, so it is not reflected to you on the outer plane. Understand that you are beautiful, that you are beautiful from the within, that beauty surrounds you from the without, that you can use techniques and skills to get in touch with your inner beauty through upliftment, through positivity, and through relying on a resource such as The Buddha Consciousness. That is to say, let that resource connect with you and remind you who you are... who you really are.

When you look in the mirror, see for yourself that you are truly light, that you are truly love and that you are truly the essence of God. We are for you, a resource, a teaching service. We are for you a new way of looking at things, a new way of seeing your world view. We are for you the vastness and newness of life that has come onto this planet through a consciousness change. We are teaching you to see the world through our eyes... through the eyes of the Buddha resource... that is, through spiritual eyes. This is our purpose, to teach you to see the Universe through spiritual eyes, through the upliftment of our eyes.

You will find that if you can stay in this frame, that life is much more purposeful, much more pleasing and much more beautiful. We are you, we are here to serve you, we are here to remind you and we are here as a resource.

WHO WE ARE - May 03, 1993

We are an uplifted aspect of the historical Buddha, a vast consciousness making itself available to you through our vehicle, Diane Chapin. She is our only representative on earth and will remain so throughout her life in that capacity. Our consciousness is so vast and our energies so extensive that she channels a particle of all that we are. Nevertheless, through all the information we have made available over a two-year period of intensive classes, lives have been changed.

We have come to provide you with new ideas using simple, fast and effective techniques you can use every day to create the life you want. The material we are offering to each of you is a gift we hope will also make your life richer and far more fulfilling. How change comes about is not all that mysterious. True change can only come as you begin to understand and have insight into your relationship with yourself.

As we look into your hearts, we see so much beauty! Our devotion to you and to your planet is demonstrated as we teach new principles explaining how you personally view your daily lives through your thoughts, actions, words and deeds. As you build a new relationship with yourself, you will find that you love yourself more, trust yourself more and, consequently, positive spiritual energy is released into your life. And, as you achieve expanding inner peace, so too, will your planet gradually become more peaceful.

All over your planet earth, Spirit is making itself more widely available. Our purpose is to assist you in your growth in many ways. We come in light, love and peace, and offer you our blessings as you step into the next phase of your life. Even though it may not always seem true, your planet is on the brink of great spiritual change. We offer you an opportunity to participate through your own spiritual development. As you open your heart to God's love for you, you change your world.

Blessings and great peace to you as you bring light to your life and your planet.

*(From a private reading on 9-21-1989 )*

**Question :** *There have been some theories formulated about how a black hole develops... mathematical formulae, but we can only look at a very small cut of time. We have been wondering, what IS a black hole from your standpoint ?*

**Answer :** They are the doorway to infinity.

**Question :** *To other Universes, as such then?*

**Answer :** Yes.

**Question :** *As a multidimensional, intergalactic being, do you use them yourself?*

**Answer :** No. We ARE their essence! We do not need to flow through, we ARE. We are All. We are all there is. You are speaking to more than you can imagine. More than you can imagine.
